EDUCATION

JOHNSON & WALES UNIVERSITY
2014
Bachelor of arts in Culinary arts
and foodservice management

PASSION PROJECT

L'CHAIM BUFFALO
In my spare time I like to turn my house into a restaurant for one night at a time, where I serve a menu that I design, while hiring in other staff to make the experience feel professional.

This allows me a creative outlet, where I can execute the things I want to do, but may not be practical for a day to day business.

My pop up has reinforced the soft skills I learned in the restaurant industry that I can directly apply to the coding world.

GENERAL ASSEMBLY   07/2018-10/2018

Project based web development career accelerator focusing on leveling up to enterprise workplace production.
Over 450 hours of hands on training, with supplemental work designed with a focus on skills influenced by employers

CAPSTONE PROJECT

App that allows a user to search for and save recipes by interacting with the Edamam Api through the Express, Mongo, and Node powered back end. The front end is currently built with Javascript, HTML, and is currently being rebuilt in React.

BUCKET LIST

Team developed fullstack application that uses mongo, express, and Javascript. The application allows a user to create, update, destroy, and edit items in a bucket list.
Focused on git version control modeling an agile scrum work environment.
Divided tasks while always focusing on the end goal, limiting the scope to mvp

WORKOUT TRACKER

Personalized fullstack application to track workouts.
Object oriented programming based on a custom built ruby on rails 4 resource back end api with joins in a relational database.
Front end calls to custom api using ajax and javascript
The front end manipulates the data to make it seem natural, despite having a complicated back end

TIC TAC TOE

Single page application focusing on front end ajax calls to both a user and game API for token authentication and CRUD actions.
Custom javascript event handler and game engine.
beta build on an algorithmic based computer opponent that calculates win probabilities.
Html and css for personalized structure and style.

WORK HIGHLIGHTS

PATINA 250	SOUS CHEF	07/2016 - 04/2018

Promoted to sous chef in November 2016
